

HYPER Unleashes New iUSBport Family

3 New Ways To Stream Unlimited USB Media to iPad/iPhone

Expand Storage and Access All Your USB Data on Any WiFi-Enabled Device

Tuesday, January 8, 2013 LAS VEGAS, NEVADA: Sanho Corporation (Consumer Electronics Show 2013, LVCC North Hall, Booth 4812), creators of the award winning HYPER line of portable power and storage products, today announced the release of three new additions to the iUSBport family: **iUSBport², iUSBport HD and iUSBport mini.**

Last year's Macworld iOS accessory of the year, the original iUSBport/CloudFTP is a self-powered wireless USB adapter that allow users to connect any USB drive to WiFi-enabled devices like iPad, iPhone, Android, Blackberry, Windows tablets and smartphones.

Perfect for media lovers or those just wishing to expand the storage of their WiFi-enabled devices, iUSBport provides the ideal solution for effortless, secure streaming of your full library of stored USB media (movies, music, photos, documents) as well as support for 2-way data transfer between WiFi-enabled devices and USB drives (including hard drives). No Internet, computer, router or external power is required. All the user need is iUSBport, their USB media and WiFi-enabled device.

iUSBport²

iUSBport² is a direct upgrade of the original iUSBport. It now has two USB ports instead of one, a microSDXC slot, micro USB charging, backlit LCD screen, higher capacity 3300mAh (8 hour rated) rechargeable battery and is 50% faster, all while maintaining the same size and form factor. The two 5W-powered USB ports allow users to connect even two bus-powered external hard drives and also function as a backup battery for two iPads.

iUSBport HD

iUSBport HD has a built-in 2.5" hard drive (500GB~2TB) with USB 3.0 connectivity, a SDXC card slot as well as an additional USB host port that allows the user to connect yet another USB hard drive, all of which storages to wirelessly connect to WiFi-enabled devices. It also features micro USB charging, backlit LCD screen and a 5200mAh (6 hour rated) rechargeable battery that can power connected USB devices as well as serving as a backup battery for iPads.

With a 50% improvement in transfer speeds over the original iUSBport, iUSBport² and iUSBport HD users can enjoy connecting up to 12 WiFi-enabled devices simultaneously and have the ability to stream 5 different 1080p HD movies to 5 different devices at the same time.

iUSBport mini

iUSBport mini is the smallest and most compact version of the HYPER iUSBport family. Shaped like a USB flash drive with a built-in microSDXC slot as well as a USB host port to connect to any USB flash drive for storage, iUSBport mini can also be used with an external USB hard drive when connected to an external power source, allowing users to easily and securely access

their entire library of stored USB media wirelessly. iUSBport mini can connect up to 8 WiFi-enabled devices simultaneously and have the ability to stream 3 different HD movies to 3 different devices at the same time.

Pricing Info and Availability:

iUSBport² will be available in Q1 2013 at the MSRP of \$149.95.

iUSBport HD will be available in Q1 2013 at the starting MSRP of \$159.95.

iUSBport mini will be available in Q1 2013 at the MSRP of \$69.95.

Product Specifications:

Model: iUSBport²

Screen: LED Backlit Mono 132 x 32 pixels LCD

Ports: 2 x High Speed 480Mbps USB Host Ports (5W Powered), microSDXC card slot

Wireless/Speed: WiFi 802.11b/g/n "Access Point", "Ad-Hoc" and "Infrastructure" Mode, 30Mbps

Supported File System: FAT32, NTFS, HFS, HFS+, exFAT, EXT 2/3/4

Software: iOS, Android, HTML5 web app. Also compatible with FTP/WebDAV/SMB/uPnP/DLNA app

Battery: 3300mAh Rechargeable Li-Poly Battery. Up to 8 hours battery life

Input Power: 10W (5V, 2A) via standard micro USB port. 5~7 hours to full charge

Dimensions/Weight: 2.95 x 2.3 x 0.9 inches (75 x 58.5 x 23 mm) / 3.14 oz (89 g)

Model: iUSBport HD

Screen: LED Backlit Mono 132 x 32 pixels LCD

Hard Drive: 2.5" SATA II/III, 7/9.5/12/15mm in height, 500GB~2TB and beyond

Ports: 1 x High Speed 480Mbps USB Host Port (5W Powered), SDXC card slot

Wireless/Speed: WiFi 802.11b/g/n "Access Point", "Ad-Hoc" and "Infrastructure" Mode, 30Mbps

Supported File System: FAT32, NTFS, HFS, HFS+, exFAT, EXT 2/3/4

Software: iOS, Android, HTML5 web app. Also compatible with FTP/WebDAV/SMB/uPnP/DLNA app

Battery: 5200mAh Rechargeable Li-Ion Battery. Up to 6 hours battery life

Input Power: 10W (5V, 2A) via standard micro USB port. 7~12 hours to full charge

Dimensions/Weight: 6.06 x 3.19 x 0.91 inches (154 X 81 x 23mm) / 10.8oz (305 g)

Model: iUSBport mini

Ports: 1 x High Speed 480Mbps USB Host Port (5W Powered), microSDXC card slot

Wireless/Speed: WiFi 802.11b/g/n "Access Point", "Ad-Hoc" and "Infrastructure" Mode, 20Mbps

Supported File System: FAT32, NTFS, HFS, HFS+, exFAT, EXT 2/3/4

Software: iOS, Android, HTML5 web app. Also compatible with FTP/WebDAV/SMB/uPnP/DLNA app

Battery: 650mAh Rechargeable Li-Poly Battery.

Input Power: 5W (5V, 1A) via standard USB connector. 1~2 hours to full charge

Dimensions/Weight: 3.19 x 1.57 x 0.59 inches (81 x 40 x 15mm) / 1.6oz (45g)

About Sanho Corporation:

Founded 2005, Sanho designs, manufactures and markets IT accessories with a focus on portable power, storage and Apple accessories. Sanho is committed to developing cutting edge products with a dedicated focus on performance, quality, value and service, with a sales and marketing office in the U.S. in Silicon Valley, California, a production facility near Shanghai, China, and R&D teams in both countries.
